CAREER PROFILE

Mobile and Frontend Developer with 1 year 5 months of professional experience in building cross-platform mobile applications and responsive web applications using React Native, React, JavaScript, HTML, and CSS.

Experienced in integrating REST APIs, Firebase services, and third-party tools to build scalable, high-performance applications. Passionate about delivering clean UI/UX, optimizing app performance, and developing digital platforms that support business growth. Seeking a long-term remote role to contribute to mobile and web development, automation, and system integrations.

SKILLS

Mobile Development

- React Native, Expo, Android & iOS App Development, Firebase (Authentication, Push Notifications, Analytics), REST API Integration

Web Development

- React.js, HTML5, CSS3, JavaScript (ES6+), Responsive Web Design, API-based Web Applications, Basic Backend Integration (Node.js / Firebase)

Databases & Tools

- Firebase Firestore / Realtime DB, MySQL (basic knowledge), Git & GitHub, VS Code

Other Skills

- UI/UX implementation from Figma, Agile teamwork & independent development, Performance optimization & debugging

WORK EXPERIENCE

Junior Mobile Developer & Frontend Developer | BridgeMe AB

2025 December - Present | Sweden

- Developed and maintained mobile applications using React Native for Android and iOS platforms.
- Built responsive web interfaces using React, Next Js.
- Integrated REST APIs to fetch and manage dynamic data from backend systems.
- Optimized UI performance and fixed bugs to improve user experience.

UI/UX Designer – Intern | Amerck Inc. (Contract Internship)

2025 May- 2025 August | Colombo, Sri Lanka

- Designed and delivered user-friendly mobile and web interfaces across multiple projects, improving user engagement and usability.

- Developed and maintained cross-platform mobile applications using React Native for iOS and Android.
- Collaborated with cross-functional teams to create wireframes, prototypes, and responsive designs using Figma and Adobe Photoshop, reducing development time by 20%.

UI/UX Designer | NPS Technologies & Client Projects

2023 December- 2024 December | Remote

- Designed and implemented user-centric mobile and web interfaces, enhancing usability
- Developed wireframes, interactive prototypes, and high-fidelity mockups using Figma, improving design-to-development handoff efficiency.
- Collaborated with developers and stakeholders to align designs with business goals, ensuring timely project delivery and improved user satisfaction.

PROJECTS

- **Real-time sign language recognition System (Final Year Individual Project)** - Developed a mobile app for Sri Lankan Sign Language with gesture-to-text conversion, offline support, and a built-in learning platform.
- **MAWPRINT Website** – Developed a responsive company website using React and JavaScript, integrating EmailJS for customer inquiries and deploying the application on Vercel.
- **Real Estate Website** – Developed a modern real estate web application that allows users to browse properties with a clean layout and smooth user experience. Deployed the application on Vercel.
- **Coffee Shop** - Designed a cafe app that simplifies browsing and ordering while keeping the user experience intuitive.
