LinkedIn | Portfolio | GitHub | Behance

CAREER PROFILE

Creative and user-focused professional with 1.3+ years of experience in UI/UX Design, now pursuing a career in Frontend Mobile Application Development with React Native. Combining a strong foundation in Computer Science and a deep understanding of user experience, I bring valuable design insight into the development process. Strong understanding of mobile architecture, CI/CD pipelines, and UI/UX principles. Highly self-motivated, collaborative, and committed to delivering high-quality, secure applications aligned with organizational goals.

CORE SKILLS

- Design Tools: Figma, Photoshop, Jira
- UX Skills: Wireframing, User Flows, Journey Mapping, Usability Testing, Information Architecture
- UI Skills: High-Fidelity Mockups, Design Systems, Responsive Web/Mobile Design, Prototyping, Micro-interactions
- Collaboration: Agile/Scrum, Developer Handoff, Stakeholder Communication
- Accessibility: WCAG Guidelines, Inclusive Design Practices
- Frameworks & Tools: React Native, JavaScript, HTML5, CSS3, Firebase, GitHub, Expo

WORK EXPERIENCE

UI/UX Designer – Intern | Amerck Inc. (Contract Internship)

2025 May- 2025 August | Colombo, Sri Lanka

- Assisted in creating wireframes, prototypes, and high-fidelity UI designs under guidance from senior designers.
- Supported design of AI-driven interfaces including chatbots and conversational flows.
- Participated in user testing sessions and iterated on designs based on feedback.
- Contributed to maintaining design systems and pattern libraries for consistent UI.

UI/UX Designer - Freelancer | NPS Technologies & Client Projects

2023 December- 2024 December | Remote

- Designed browser-based interfaces for tools with technical audiences.
- Produced wireframes, mockups, and prototypes to support usability and adoption.
- Partnered with clients to iterate on high-complexity products, including SaaS dashboards and analytics platforms.

EDUCATION

BSc (Hons) Computer Science – NSBM Green University / Plymouth University (United Kingdom)

2022 – 2025 | Second Class (Upper Division)

SELECTED PROJECTS (CASE STUDIES)

- **Lanka Travel Buddy App** – Designed an AI-assisted travel planning app with personalized trip recommendations.

- **BOC Banking App Redesign** - Designed a modern mobile banking app interface with improved navigation, light/dark modes, and enhanced user experience.
- **Real-time sign language recognition System (Final Year Individual Project)** - Developed a mobile app for Sri Lankan Sign Language with gesture-to-text conversion, offline support, and a built-in learning platform.
- **Coffee Shop** - Designed a cafe app that simplifies browsing and ordering while keeping the user experience intuitive.
